At noon, however, the news of the passing of the Baitimore and Onio dividend was received which became the signal for a beavy swing movement aided by the circulation of many disquieting rumors all of which had their effect. The story that Mr. Villard had resigned from the Northern Pactife directory was used against that and its kindred stocks and the pressure spon Union Pacific became participation.

BATTLE BETWEEN PITCHERS

THIRTEEN INNINGS REQUISITE TO SET

THE DETROIT-ST. LOUIS CONTEST.

Something of a Contrast at Capitol Park-Mers Down the Washingtons-Turf Matters of Interest.

DETROIT, Oct. 12 .- It took thirteen insings to decide the third game between Detroit and St. Louis for the world's champiouship, and the Detroits won it through wretched fielding on the part of the visitors. The Browns secured sixteen off Getzein, but for the most part they were badly scattered, their only run being scored on a play of the chump va-riety. Caruthers was remarkably effective bolding the Wolverines down to six actua-hits and a base on balls. Score:

INNINGS.

THE "METS" DEFEAT WASHINGTON. The "Mers" DEFFAT WASHINGTON.
The "Mets" had no difficulty yesterday in defeating the Washingtons, which result was witnessed by a very small number of spectators. O'Day was the twirler for the Statesmen, and the Indians from Stateslessen took very kindly to his mode of pitching. They started off in the first interest to the states of the property ning by making an earned run by clean hitting, and from that point up to the end of the sixth inning, when the game was called on account of darkness, the visitors called on account of darkness, the visitors scored runs simply as they pleased with little opposition on the part of the Senators Caylor's boys banged the sheepskin at will and stole bases in a most audactous manner. The Statesmen also batted well, but their fielding was, to put it mildly, not up to the standards of a professional club, and several of the runs credited to the "Meta" would not have been scored had proper handling of the ball been the order of the day. As it was ould a contingent of the handling of the ball been the order of the day. As it was quite a contingent of the statesmen appeared to be laboring under the delusion that they had a soft anap, and no exertion was required on their part in order to win a victory. Their anticipations in this respect falled to materialize, however, and the "Meta" are deserving of credit in winning the game by superior playing at critical times. Hines, W. O'Srien, and Myers did the best batting for the Washingtons, and Radford and D. O'Brien for the "Meta." The same clubs play again to-day, when Gilmore and Wright will be the Washington's battery. The score is appended:

There were several hundred occiple at St. Aloyaius' Church last evening to witness the marriage of Mr. Eugene D. Carusi and Mise Mary Elizabeth Meritt, daughter of Mr. and Mrs. A. E. Merritt. When the gates were opened to the people they crowded into the church, and the weddling guests who arrived in carriages were sadly jostled. The altar was brillantly lighted, and the marriage group made a very pretty picture. The ushers were Mr. Water H. Acker, Mr. Littelle, Mr. J. L. Heiskill, and Mr. Kinsey, of Baltimore. The groom was attended by his best man, Mr. Campbell W. Pushnell. The bride was escorted to the altar by her father, and was preceded by her sister, Miss Stella Merritt, and the bridesmaids, the Misses Solomons, Miss Jones, and Miss Bester They were dresses of white tuile, and carried bunches of golien rod. The bride wore a superb sweeping robe of white silk, veiled with tuile, that was caught and fastended in her hair with orange blossoms. Father McGurk, pastor of St. Aloysius', officiated, assisted by Fathers Noonan and O'Connell. After the service the bridal party and the invited guests drove to the Merritt residence, 612 H street, where a reception was held from 7 to 9 o'clock, when the newly wedded pair donned their traveling apparel, and left the city on their welding journey.

MADIGAN—SCHWING.

The pretty church of St. Patrick's was the scene of a happy marriage vesterday morning at 10 o'clock. A large company were assembled at that time to witness the ecremony. Mr. D. P. McCarthy and Mr. W. T. Donnelly seated the congregation. There were some foliage plants on the altar and the candles were lighted. Miss Annie Schwing and Mr. Frank P. Madigan, the high contracting parties, arrived in a carriage, and were received by the inshers, who escorted them to the altar. Father Walter, of St. Patrick's, performed the ceremony in the most effective manner, Rev. John T. Whalen, secretary to Cardinal Gibbons, from Baltimore, and Father McGes, of St. Patric's, assisting. The bride wore a tight fitting tailor-made suit of caster colored cloth, with a brown plush hat, trimmed with ribbons and wings. She carried a pyramidal bouquet of La France roces frieged with maiden's hair forns. Miss Boone, the organist, played the wedding marches. At the close of the service the bridal party drove to the Sixth street sation and took the 11 o'clock train for New York where they were to make their first stop. Before their departure a number of their friends came to see them off and there was a general season of handshaking, embraces, congratulations, and good wishes for a time. When at last the train was called Mr. and Mrs. Madigan went through the station gates as handsome and as happy a couple as the cars ever carried on a bridal tour. They will return to the city in a couple of weeks and will reside at 642 B street southwest.

The complainant alleged that this charge was unjuet, unreasonable, and extortionate; that it was at least twice as much as it ought in justice to be; that he much as it ought in justice to be; that he had a great quantity of wheat intended for the market, but at the rate charged by the resilrond he could not ship it with any profit. He asked that the road be required to refund him one half the sum paid by him.

The c mpany admitted the charge, but claimed it was neither unjust or unreasonable. Read's complaint also slieged unreasonable charges for exercing what reasonable charges for carrying wheat Formal printed arguments are to be sub

TO BE A SOLDIER.

Physical Requirements that Not. Many Applicants Can Meet,

"Then what few men are out of employnent and want to go into Uncle Sam's service are most of them not up to the standard," said Lieut. Cusick, who is in charge of the recruiting office recently removed to Portland from Pittsburg, Pa. It is the first opened in Maine for a great many years, perhaps the first since the days of the war. The lieutenant continued:

"The United States army wants 1,509 men at once to bring its attrangth up to

men at once to bring its strength up to the 25,000 required by the act of Congress. So far we have had but 31 applications in Port land, and only three of them have been acceptable. Of the other 19 there was one ceptable. Of the other 19 there was one out' or another that compelled us to reject them. Fully two thirds of them had defective eyes. One eye was not so good as the other. In the army a man must have good eyes that he may become a good warksman, and that he may be able to distinguish different objects. One eye should be as good as the other, so that in case of temporary injury to an eye the efficiency of the soldier may not be impaired. Dissipated habits, to much rum and tobacce are common causes of these weaktobacce are common causes of these weak-nesses of the eyes. In many cases defects of vision have been produced by blows.

withen in chest measurements and weigh we find frequent reasons for rejecting ap-plicants, especially at this season of the year. The bard work of summer reduces picants, especially at this season of the year. The hard work of summer reduces the weight sod the girth of the chest. We have a regular system of measurements, and it will not do to depart from a standard in a single particular. For the infantry service we take none below 5 feet 4 inches in height, and none over 6 feet 3 inches. For the cavalry 5 feet 4 inches to 5 feet 10 inches are the limits. We don't have any tail cavalry men because they are liable to get too heavy. Light, tough men are wanted for that service. Now for the shortest infantrymen, 5 feet 4 inches, we require that he shall have a weight of 128 pounds, a chest measurement of 34 inches, with the ability to expand his chust 2 inches by drawing in a full breath. Then these requirements of weight and chest measurements are higher for tailer men. A man 5 feet 8 inches tail must weigh 141 pounds at least, measure 344 ground the chest, and have a chest expand on 52 kinches, for 5 ments are higher for tailer men. A man 5 feet 8 inches tall must weigh 141 pounds at least, measure 344 around like chest, and have a chest expansion of 24 inches; for 5 feet 10 inches the required minimum is 155 pounds for weight, 354 inches chest and 24 expansion; for 6 feet the weight is 109, the chest measurement 364, expansion 24. You see it does not necessarily follow that a man must be an athlete to join the army, as the tables to which the professors of physical culture train their pupils to have a standard of chest measurement somewhere near 40 inches for a man 6 feat tail. But we want good average, well-built, and healthy men, without any defects physically. So far we have secured three out of every twenty applicants. But I don't think this small proportion is any sign that the vigor of the youth of Maine is departing. For many reasons the men who apply are not fair samples."

"Are the inducements offered by the service such as to attract the most ambitious young men?" asked the reporter.

"Well, you can judge for yourself. The soldler gots \$12 a month with his board and clothes. He enlists for five years, and must stay in the service until his term expires, unless he can get the Secretary of War to allow his discharee. By good be-

and must stay in t e service until his term expires, unleas he can get the Secretary of War to allow his discharge. By good behavior he gets an increase of \$1 a month during the third year of service, \$2 during the fourth, and \$3 during the fifth. If he is promoted he gets further additions to his pay. He may become a corporal, a sergeant, a quartermaster or a commissary; he may even go higher, and by passing an examination before a board of officers get certified for an examination at Fort Monroe, Va. If he passes at the forthe may then become a commissioned officer, starting as a second lieutenant."

"Do many avail themselves of the oppor-"Do many avail themselves of the opportunity;"

"The young men who graduate at West Point have the first chance, and of late they have filled all the vacant commissions. Practically very few men rise; the army from the ranks to a commission. Adjutant General Drum, however, is one who did. I sm not a graduate of West Point myself, but I servee as an officer of volunteers during the war, and was then transferred to the regular army as a commissioned officer. So I had an opportunity better than falls to the young man who enters the army now in any other way than through West Point. Yet there are some promotions even now. The commissions of the army are also open to civilians, though this is not generally known. After the West Point graduates have got places, and the promotions from the ranks of non-commissioned officers have been made, any vacancies left (there are rarely any, however) are open to civilians who can pass the examination required."

The best medical writers claim that the successful remedy for massi cataerth mind be non-irritating, easy of application, and on that will by its own action reace all the remote sores and ulcested surfaces. The his tory of the efforts to treat ca arch during the past lew years obliges us to admir that only one remedy has completely met these conditions, and that is Ely's Cream Balm. This safe and pleasant remedy has mastered cataerth as nothing else has ever done, and both physicians and patients freely conesie this fact. The more distressing symptoms quickly yield to it.

of all the eighty-seven with which Irelami has been oppressed, and have made it the law forever and ever! Is it strange that there are rebels among Irishmen? Is it not stranger that there is a living Irishman who does not hate the very name and thought of England? Put yourself in his place. And, finally, do you thick, English workingmen, that the enforcement of such rights of property as these does not concern you? If a great land crists and land war should come in England, as it well may, would your home and your wife and your children be safe where these are the rights of property? Ask yourself that, Property has no right to take human life."
